

CITY OF KEOTA WATER DEPARTMENT
PWSID# 5440028
AUGUST 2, 2018

PUBLIC NOTIFICATION
MONITORING VIOLATION OF THE WATER TESTING SCHEDULE

Our water system violated a drinking water standard(s) over the past year. Even though these were not emergencies, as our customers, you have a right to know what happened and what we did to correct these situations.

We, the City of Keota Public Water Supply, are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During April, May, and June of 2018, we did not monitor or test two (2) samples for Nitrite and Nitrate and therefore cannot be sure of the quality of our drinking water during that time.

What should I do?

There is nothing you need to do at this time.

What happened? What is being done?

Samples were not taken by the deadline of June 30, 2018. The replacement samples were taken on July 11, 2018.

For more information please contact the City of Keota at 641-636-2266.
